

# LilyCare

**Revolutionize Women's Sexual Health**

## **MULTI-WAVE THERAPY FOR FEMALE SEXUAL DYSFUNCTION**

---

Millions of women around the world suffer from pain and discomfort in their sexual lives. Common symptoms include reduced or lack of vaginal lubrication, pain and discomfort during intercourse, diminished sense of arousal and difficulty in achieving orgasm.

Family doctors, OBGYNs, sexual medicine specialists, and other medical professionals can successfully treat more women with LilyCare, an easy, non-invasive solution.

### **TREATMENT ADVANTAGES**

- Improves quality of life
- No reported side-effects
- Easy to apply and monitor
- Mobile on-demand patient care
- Comfortable, non-invasive treatment requiring no anesthesia
- Fast procedure, short period of treatments
- Long lasting and low maintenance

## STIMULATE THE BODY'S NATURAL MECHANISMS

LilyCare treatment utilizes MULTI-WAVE technology to stimulate vasodilation as a short-term response and neovascularization (angiogenesis) as a long-term response. LilyCare also contributes to regeneration of nervous tissue and increased blood flow. In turn, these natural mechanisms potentially increase orgasm intensity and improve various feminine disorders.

## ALLEVIATE SEXUAL HEALTH ISSUES

LilyCare\* is an ideal treatment for the following symptoms:

- Diminished vaginal lubrication associated with pain during intercourse
- Diminished sexual arousal and difficulty achieving orgasm
- Sexual dysfunction treatment in diabetic women
- Vulvar Vestibulitis Syndrome (Provoked Vestibulodynia Disorder)
- Chronic Pelvic Pain Syndrome (CPPS)
